Dantherm

CONTROL YOUR DANTHERM VENTILATION SYSTEM WITH THE TOUCH OF A BUTTON

The Dantherm Residential app offers a smart way to control your Dantherm residential ventilation unit.

Benefits

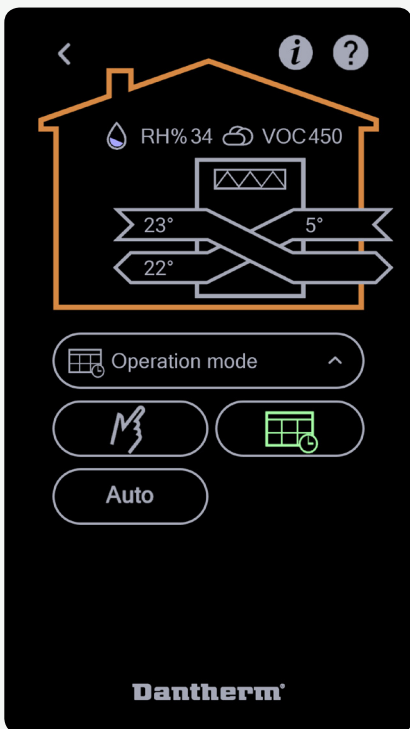

Control settings, such as

- Demand control operation
- Manual operation
- Week program operation
- Night operation
- Manual and automatic bypass cooling
- Summer cooling
- Fireplace mode
- Alarms

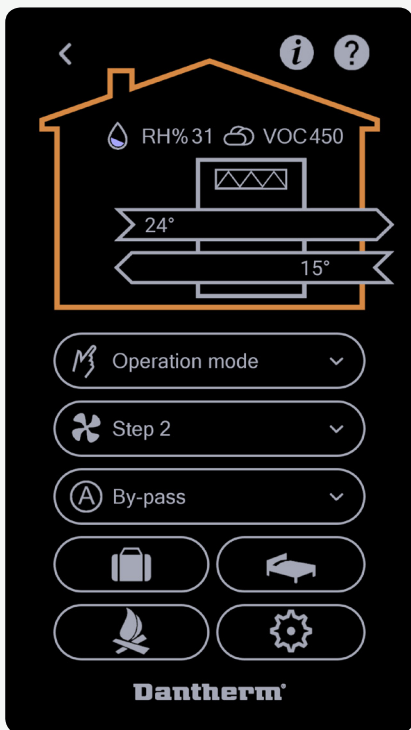

Selection of operation mode

Select between manual control, demand control or week program operation.

Bypass cooling

Dantherm residential ventilation units have a built-in automatic bypass function to obtain 100 % free cooling with outdoor air, e.g. after a hot summer's day.

Week program operation

From 10 predefined week programs select one that suits you best.
